As we speed towards our first event of 2011, we've added some updates to the site with links to our video clips on Youtube and will shortly be adding more mixes to our Soundcloud page! Mixes from Dave Enigma and Joe ET are currently available on the site, just follow the Soundcloud link on the main menu above or go to the individual artist pages to listen in.

After the massive success of our second head to head hardcore feast with North, we reckon that between the promoters, the djs and all the party people who gave it their all on the dancefloor, we really captured that true party spirit we had at the Void, massive respect to everyone who showed their support! Here's some video clips of the night for you to enjoy..
